

Result inquiries: anomalous result inquiries from principals

ACE 9026

Last Updated: 1 April 2019

Principals may seek an explanation of the results of their school's most recent HSC candidature in any course where the performance of the group is below expectations. This service is not an avenue of appeal.

Inquiries must be supported by the principal's reason for expecting a different result. Inquiries will be thoroughly investigated by NESAs. The student name and number and the reason for the inquiry should be included.

A brief written explanation of the results will be forwarded as soon as possible.

Result inquiries will only be considered if they are received in writing from the principal by the closing date (see the HSC key dates and exam timetables). They should be forwarded to the Executive Director, Curriculum, Teaching and Assessment at NESAs.

Result inquiries: Higher School Certificate Examination Inquiry Centre

ACE 9027

Last Updated: 1 April 2019

Students wishing to inquire about their results may contact the NESA Higher School Certificate Examination Inquiry Centre. Contact details will be notified at the time of issue of Higher School Certificate results.

Result inquiries: results recheck

ACE 9028

Last Updated: 1 April 2019

On payment of a fee, HSC students may apply for a recheck of their results. This confirms that all marks awarded have been correctly entered to the computer file, that any question scored as a non-attempt actually contained no attempt and the responses to objective response questions on NESA's system match the student's intention as recorded on their answer sheet.

Students can order the recheck via *Students Online*.
